DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

2. Claims 1-10, 22 and 23 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Rice et al (US 6,092,604) (see figures 1-7 and column 4, lines 18-27).

As for claims 2-3, screen wire 46 has offset and non-offset overlapped portions.

As for claims 4-5, base pipe 12 constitutes “mandrel” as recited.

As for claim 7, welds 24 at opposite ends of screen wire 46 constitute “seals” as recited.

As for claim 8, the prepack sand 52 and screen wire 46 of the embodiment shown in figure 3 constitute the “filtering member” as claimed. Rice et al disclose in column 6, lines 4-5 that the prepack sand 52 may be resin coated and baked in place.

As for claims 9-10, see figures 3-4.

Response to Arguments

3. Applicant's arguments filed 4/4/2006 have been fully considered but they are not persuasive.

Contrary to applicant's argument, the claims are silent regarding the portions that overlap and the direction in which they overlap. In figure 2 of Rice et al, different portions of the single wire 18 overlap in the axial (or vertical) direction. Different portions of the single wire 18 also are offset from one another in the axial (or vertical) direction. Moreover, since the claims are silent regarding the element relative to that the overlapping portion of the single wire overlap,

Art Unit: 3672

any portion of the single wire 18 that overlap with the base pipe 12 or ribs 16 or perforations 14 (or with another wire as shown in the embodiment of figures 3-4) can be considered as an “overlapping portion” of that single wire as recited.

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
